NATF is proud to share this eighteen-month review with you — our supporters, friends, and professional colleagues.

This snapshot of NATF's activities shows how your support reinforces and catalyzes our ability to deliver superior educational resources for patients and healthcare professionals alike in the fight against thrombosis and related cardiovascular diseases such as pulmonary embolism, DVT, stroke prevention in atrial fibrillation, and myocardial infarction.

Our accomplishments cover the full spectrum of organizational growth steps. From initiating our first endowed lectureship, to formalizing NATF's fundraising program and the professional management of our finances and assets, to sustaining the excellence of our renowned educational programs with seven consecutive Thrombosis Summits and dozens of community programs — our young organization is maturing.

Your contributions to NATF — for membership, the Annual Fund, the Sasahara Lectureship, and our Signature Event — have made these achievements possible. Your support enables us to be the reliable and authoritative voice of thrombosis awareness and prevention for the countless individuals affected by these diseases.

Your extraordinary generosity ensures both our ability and capacity to carry out our mission. We are truly honored to recognize you, our loyal donors, in this organizational profile. You make a lifesaving difference to the patients and professionals we serve. Thank you.
